UNIVERSAL

The system is designed for individual and multi-family housing, businesses and office buildings. The elegant and on the same time resistant steel casing, a versatile intercom uniphone HAS-255 perfectly use the new trends in construction.

COMFORT

Tenant does not have to carry key to the door, selects only the code on the keypad. Uses legible and illuminated keyboard (best appreciated at night). Choice of number (the buttons) is confirmed by a signal light and sound.

SECURITY

The system allows communication with people who have not yet the building / offices. It guards against unauthorized guests, and those that interfere peace of mind. Owner has also the power to change the combination if it was announced to third party persons.

ECONOMY

The customer does not bear the costs of refurbishing the existing intercom network - does not need replacement of an existing installation and wiring.

UNIQUENESS

Unique solution for residential homes, both single-and multifamily. HAS-3032 will provide connectivity between multiple entrances / gates with concierge.
